

Fill in the light green boxes for each proposal for each category.
Score categories, as appropriate, on a scale of 1 to 5, where 1 = Bad and 5 = Excellent

	Factors	Definition	Specific Ranking Criteria	Weight	Minimum Qualifications	Scale	Raw Score				
							Vendor 1	Vendor 2	Vendor 3	Vendor 4	Vendor 5
Project Details- 20%	Availability and Technical Reliability (Technology Specific)	Project meets system need identified within the competitive solicitation.	Project meets the system need identified in the RFP and the technology is dependable, commercially available, and proven and its integration will not cause reliability concerns to the network. Also, included here are heat rate and capacity estimates, availability guarantees, dispatchability (if applicable), safety, unplanned outage factor guarantee, fixed and variable O&M costs, start-up times and costs.	15.0%	Yes	Pass/Fail					
	Project Applicability and Viability (Application Specific/System Need)	Ability of project meeting the system need identified in the RFP with a commercially available technology.	Project meets the system need identified in the RFP and the technology has been proven and commercially available.	30.0%	Yes	Pass/Fail					
	Timeliness	Ability of meeting timeline established in the RFP including interconnection of the Facility.	Meets in-service date specified in the RFP.	20.0%	Yes	Pass/Fail					
	Customer Contribution	Evaluates the total customer contribution required with the Proposal(s)	Percentage contribution required of customer vs. the EDC. The lower the customer contribution the higher the rank.	15.0%	No	Rank 1-5, 0% customer contribution (CC)-5 points, 25% CC- 4 points, 50% CC-3 points, 75% CC- 2 Points, and 100% CC- 1 Point.					
	Societal and Environmental Impacts	Considers societal and environmental benefits established through the Benefit Cost Analysis Framework.	The more societal and environmental impacts considered the higher the rank.	5.0%	No	Rank 1-5, 0% customer contribution (CC)-5 points, 25% CC- 4 points, 50% CC-3 points, 75% CC- 2 Points, and 100% CC- 1 Point.					
	Proposal's Completeness	Ability of following instructions established through the RFP document and executing them to ensure the proposal submitted is completed per Contractor's Checklist provided in RFP.	Organized, well prepared, thorough.	15.0%	Yes	Complete, organized- 5, Complete, not organized 3, low level of completion and not organized 1					
Scoring							#VALUE!	#VALUE!	#VALUE!	#VALUE!	#VALUE!
Contractual- 20%	Contractor Qualifications & Demonstrated Experience	Technical capabilities, quality of deliverables, and ability to represent UI/Eversource well. Whether the Contractor has demonstrated that their firm has the experience and expertise or the ability to provide subcontractors having the appropriate knowledge to perform the requested tasks.	Contractor, Engineering, Procurement and Construction ("EPC") contractor, prime subcontractors and, if applicable, Operation and Maintenance ("O&M") operator or other entity responsible for the development, construction, O&M of the proposed project. This may include their experience (demonstrated track record) in successfully developing and operating similar projects in North America and Canada;	25.0%	Yes	Pass/Fail					
	Terms and Conditions	Acceptance of UI/Eversource Terms and Conditions.		25.0%	Yes	Pass/Fail					
	Creditworthiness & Security	The company's financial standing, ability of providing credit information, and background.	# of profitable quarters in last 3 years and ability of providing security.	25.0%	Yes	Pass/Fail					
	Diversity	Diversity/Small Business		25.0%	No	Pass/Fail					
	Scoring							#VALUE!	#VALUE!	#VALUE!	#VALUE!
BCA- 60%	Benefit Cost Analysis	Once the items listed above have been completely met by Contractor's proposals, then a BCA shall be conducted.	BCA score of 1.0 or above will be considered cost effective.	100.0%	Yes	BCA result in percentage will be used as the weight above 1.
